

CASTEL: SAFETY FIRST

We support the growth of our customers with reliable, durable, quality and technologically advanced products. With our large range of safety devices and their accessories for refrigeration and air conditioning plants you can find the product you need for every kind of application; fluorinated refrigerants (HCFC, HFC and HFO) and natural refrigerants (HC and CO_2).

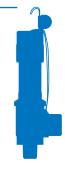

WIDE RANGE

Castel proposes a wide range of safety valves for CO, Booster, Cascade and pumped liquid systems.

Safety valves series 30 are specifically designed to be suitable for CO_2 transcritical and subcritical systems with maximum working pressure up to 165 bar.

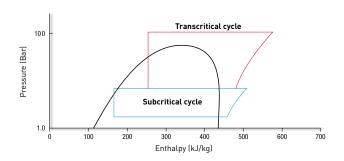

LARGE SETTING RANGE 10 TO 150 BAR

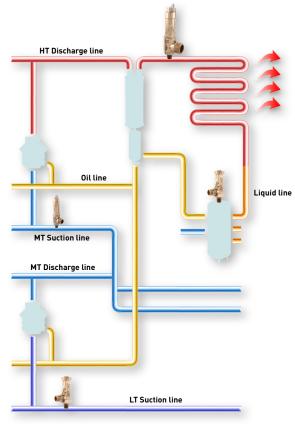

CONNECTIONS 1/4", 3/8", 1/2", 3/4" AND 1" NPT

HIGH TEMPERATURE RANGE

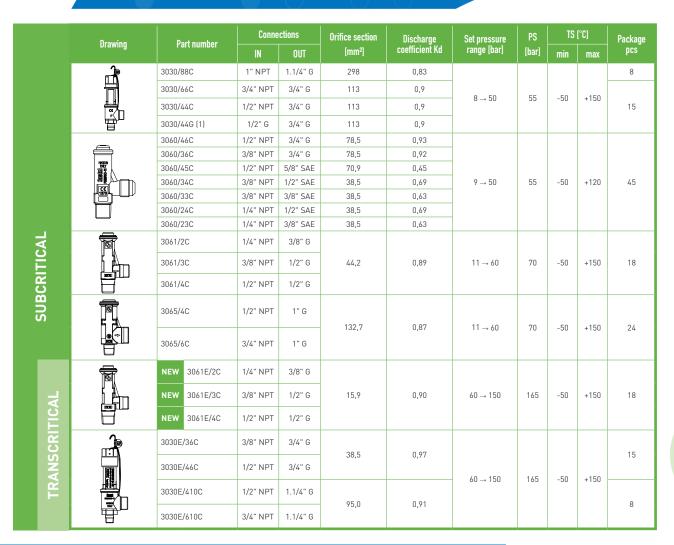

Series 30 safety valves can be installed anywhere in the system thanks to the large setting range of 8 to 150 bar.

R744•NATURAL REFRIGERANT

Castel has always been aware of environmental sustainability issues and gives its contribution to a cleaner environment, supplying the refrigeration and air conditioning industry with state-of-the-art and environment-friendly technology. With its commitment and steady research in its laboratories, Castel has developed a whole range of products using natural refrigerants, which reduce emissions to the minimum. The large range of products belonging to the Castel "GoGreen" line has been developed to be used in CO₂ (R744) filled systems.
